### What's New In?

It's no easy task to bring a window to the top of the screen when other windows are launching. This is why Window On Top is a small utility that enables you to achieve just that with a few simple clicks. It's an application that will not slow down your system, nor crash it. It's easy to use, easy to install and it's free! Window On Top is a small software solution with a huge potential. The unique feature of this application is the ability to put any frame on top. It's easier than you think. If you just want a program that will keep a specific frame on top for a little while, it will do the job well enough for you. But if you are an artist, you should think of a long-lasting topmost solution. And here it is! Window On Top is that type of tool that offers you everything you need to make a window stay on top all the time! As it has been said, the application doesn't slow down your computer, and it will not get infected with malware. For those of you who are fond of their productivity, Window On Top will become your best friend in no time! If you have several frames, you will be able to do different tasks with each of them. Put your mail, your finance and your music sessions into one window, then let your browser occupy the top left, your favorite chat client in the top right and of course, all your work

---

into the bottom half of the screen. It doesn't matter what kind of task you will be doing in the future, you will be able to reach it faster and easier than before. Let Window On Top take care of all the little things in your life! Do you want to stay organized? Window On Top can help you in any way! If you have several tasks to be done, the application will do them automatically. For example, you can set a mail session, a window with your file manager, the terminal and even your browser in order to avoid the need to open them separately. The result is a total efficiency that can't be questioned! This utility is compatible with any kind of platform. It doesn't matter if you use Windows XP or Windows 8/8.1/10, it will work everywhere! If you want to get rid of all the trouble that can occur when other windows pop up, you can use Window On Top to put a window on top of all the other launched ones. It's a little tool that will make you smile, thanks to its simple and intuitive interface. System Specs: Windows XP, Vista, 7, 8, 8.1 or 10 62 Mb Language: English
